

Clark Forklift Part

Clark Forklift Parts - At present, there are no less than 350,000 Clark forklifts performing globally, and in excess of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive brands of lift trucks, with parts covering more than 120,000 specialized parts for all of its automated equipment. Your local Clark Dealer is your complete source for availability of all your parts needs supplied by Clark Totalift.

Clark has a exceptional Parts Distribution team. The components warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Clark Totalift has a very impressive worldwide support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the material handling industry.

Clark proudly remains an progressive leader of the material handling industry, revolutionizing protection features such as the operator restraint system. This exceptional commitment to safety is currently a standard feature on every lift truck.

Clark has a continual objective to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the particularly economical and advantageous structure of "Lean Manufacturing" for its assembly plants and application of resources. This structure was established to acknowledge the most efficient approaches of manufacturing plant management and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The new value engineering agenda combines progressive product improvement and provides improved consumer support and service within the industry.
