

Barrel Clamp

Barrel Clamps - Referred to as "Barrel Clamp", this particular hydraulic accessory is utilized on lift trucks in order to squeeze items that you want to transfer with the forklift. Normally, they're used in order to handle kegs, paper rolls and barrels, along with a few barrel clamp designs having the ability to rotate the cargo. For instance, the revolving function permits a lift truck operator to slot in a vertically stored paper inside the horizontal intake of a printing press.
